

The European Space Expo

Overview

European Space Expo
Discover what Space brings to your life

12 – 21 June 2015
Zagreb
ec.europa.eu/eu-space-expo

Bringing Space to the doorstep of European citizens

The European Space Expo is a touring exhibition showcasing the flagship European Space programmes: Copernicus, Galileo and EGNOS, and their benefits and applications.

Accessible: Deployments across Europe for several days at a time

Interactive: Educational multimedia technologies; model satellites

Free of charge: The Expo is open to all members of the public

Speakers: Invited experts speak on Space research and technology

Versatile: A space for side events, workshops and meetings

Localised: Multilingual materials

The European Space Expo across Europe

The Expo has been deployed in 26 European cities and has played host to more than 700,000 visitors since the start of its journey through Europe in Copenhagen in 2012

Copenhagen
(May 2012)

Larnaca
(November 2012)

Madrid
(February 2013)

Budapest
(March 2013)

Warsaw
(May 2013)

Rome
(August 2013)

Lisbon
(December 2013)

Craiova
(April 2014)

Prague
(June 2014)

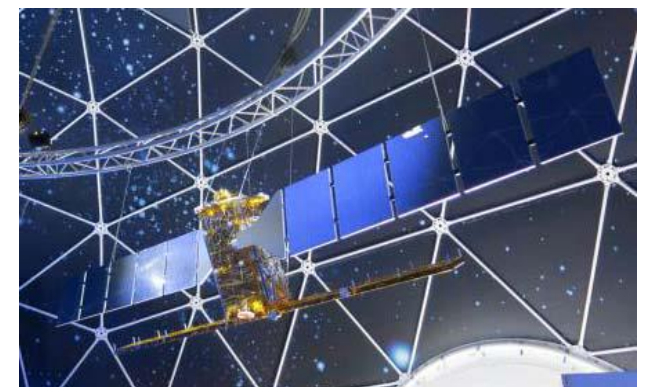

...and Athens, Bratislava, Brussels, Dublin, Genova, Hannover, Helsinki, Ljubljana, London, Munich, Riga, Sofia, Stockholm, Tallinn, Toulouse, Vienna, Vilnius

Inside the European Space Expo

The Expo contains a range of technologies for communicating the benefits and applications of Copernicus, Galileo and EGNOS

The Expo is equipped with:

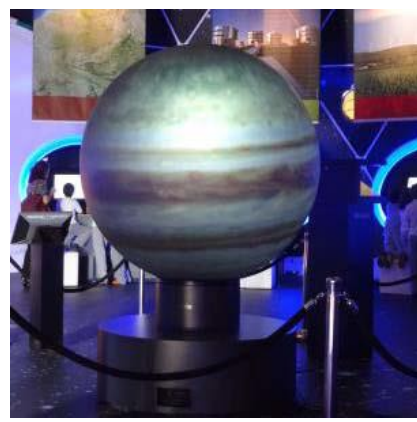

- A platform and wide-screen monitor for speakers presentations
- 12 multimedia touch-screen workstations
- The Omniglobe - a unique tool for visualising and interacting with Earth Observation data
- Replicas of Sentinel and Galileo satellites

The Omniglobe

The Omniglobe is an effective educational tool for explaining the benefits of Space and Space data to non-specialist and younger audiences

The Speakers programme

Each Space Expo deployment is enhanced by a rich programme of short speeches targeted at the general public by invited experts from the host country

Example of programme in English and local language

Visit for schools and universities

During the day, the Expo is host to visiting schools, clubs and universities, who are given accessible introductions to the European Space programmes and their benefits

Next stop: Zagreb

The European Space Expo will visit Zagreb, Croatia between the 12 and 21 of June, 2015
It will be located at Trg Bana Josipa Jelačića

How you can contribute and participate:

- **Sign up to take part in the speaker's programme**
- **Promote the Expo amongst your network of contacts**
- If you work at a university: **arrange a guided tour of the Expo**, tailored to the needs and interests of your group
- If you are in contact with schools: **inform them of the Expo** (and inform us of your contact with them)
- **Visit the Expo!**
