General information

The International Scientific Committee and the Organising Committee are very pleased to invite you to participate in the 8th International Symposium on Applied Electromagnetics – SAEM'20 which will be organized in a peaceful atmosphere of the Hotel Patria, Beli Manastir, Croatia.

The town of Beli Manastir is located in the northeast of Croatia, near the Hungarian border, in a beautiful region of Baranja. Bordered by the Drava and Danube rivers connected to one of the most beautiful nature reserves in Europe, Baranja is a place full of wine roads, natural and cultural beauties and rich gastronomic offer.

Scope

The symposium SAEM'20 is aimed at the presentation of research results as well as the survey of works in Applied Electromagnetics and Power&Energy area in a broad sense. The symposium is devoted to exchanging ideas, presenting recent achievements and results. It provides a wide forum for academics and engineers to discuss all aspects of electromagnetics and power&energy applications. Many members of applied electromagnetics community are highly engaged in the field of power and energy as well. Contributions are encouraged, but not limited to, the themes and topics in the following areas:

- | | |
|--|---|
| <ul style="list-style-type: none">- Computational Electromagnetics- Coupled Problems and Applications- Optimization and Computer Aided Design- Electromagnetism in Materials- Applied Electromagnetics in Electrical Engineering- Bioelectromagnetics and Electromagnetic Hazards | <ul style="list-style-type: none">- E-mobility- Smart Buildings, Smart Cities and Smart Grids- Renewable Energy and Energy Storage Systems- Energy Efficiency- Energy Management- Low Carbon Technologies and Strategies |

Contributions

English will be the official language of the symposium. Prospective authors are kindly asked to prepare a single-spaced one-column two-page digest including the title, authors and their affiliation, as well as the main content of the paper, results, figures and references. The digest files (both WORD and PDF) should be submitted to the conference using the website <https://cmt3.research.microsoft.com/SAEM2020> no later than the announced deadline. All papers will be reviewed on the basis of the digest. The Book of Digests will be published in an electronic form and will contain all preliminary accepted papers received by the specified deadline. Authors of the accepted digests will be asked to present their paper(s) in either poster or an oral form.

After the conference the authors will be invited to submit their full papers for review in special issues of the selected journals: Technical Gazette (ISSN1848-6339, WoS IF=0,678), Automatika - Journal for Control, Measurement, Electronics, Computing and Communications (ISSN1848-3380, WoS IF=0,5), International Journal of Electrical and Computer Engineering Systems (ISSN: 1847-7003) and Przeglad Elektrotechniczny (ISSN 2449-9544). The submitted full papers will undergo an independent peer-review process according to the rules of a specific journal and will be published depending on the final decision of the reviewers.

Registration

The regular registration covers author's package, admission to the sessions, a copy of the Book of Digests published on USB, accommodation (3 nights in a double room), welcome dinner, 2 lunches, coffee breaks, welcome reception, banquet dinner and social events during the symposium.
